Jane, Peter,
Thanks for taking the time to do a short brief for Stan and others today. I hope the outcome was workable both for the Region and OW.
Cheers
Mary

Mary, I expect to issue a letter by March 9 responding to CA's plan and including a schedule of activities and deliverables to return the Title II oil and gas UIC primacy program to compliance with the SDWA. This has been an intensive effort and not at all focused on hydrofracking. We received the State's plan on Feb. 6 and there are number of factors influencing our March 9 response date. Given the broad program-level nature and public visibility of this effort, our RA has periodically updated the Administrator on our activities and we've kept Ken Kopocis and Peter Grevatt in the loop. I'd be happy to talk with Stan or you to provide any more information needed this week. Jane

Jane Diamond

Water Director, EPA Region 9

David,

What do you see as the timing for responding to CA's plan that you are reviewing? I would like to put this on the calendar for Stan's HF Biweekly before a response is issued.

Thanks

Mary
